- Please hold your questions to the end of the session.

That will keep us from doing this and becoming this.

A Disclaimer

- We will talk about Medicare rules today as they relatively the same throughout the country. RHC certification only affects Medicare and Medicaid reimbursement.
- We will not talk about Medicaid rules as there are 50 different ways for Medicaid to pay for services. Medicaid is required to fund RHCs at a higher rate under the Social Security Act as a part of receiving Federal Matching funds.
