A Quick Update regarding the coinsurance for G0511

Mark Lynn [Admin](#)

Yes, just got an EOB and both G0511s were paid at \$56.72 each. I am not sure Palmetto is computing the co-pays correctly though. They have a \$14.34 co-pay for both G0511s even though one had a charge of \$75 and the other \$150 (the copays should have been \$15 and \$30). Anyone else having this issue?

Sarah Hohman

Mark Lynn Hey Mark -- coinsurance for care management services is based on the lesser of total patient charges or the G0511 rate so this looks about right to me.
